Tree Basket	34"DIA/TOP X 34"DIA/BTM X 18"H
Garden Bed Basket	4'L X 2'W X 18"H

BENEFITS OF OUR WIRE

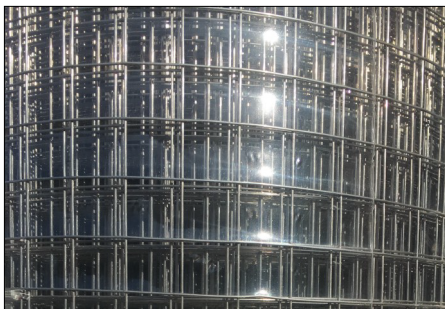

Wire rolls roll out flat for easy cutting and placement—no roll back

Stainless Steel is highly corrosion resistant and will last longer underground than galvanized wire

Estimated 10-20 years underground before it begins to corrode

18 gauge is strong yet pliable

Baskets are pre-formed and have reinforced rims for extra sturdiness and ease of use

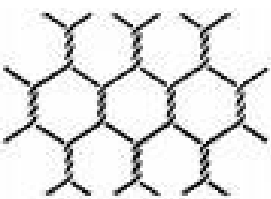

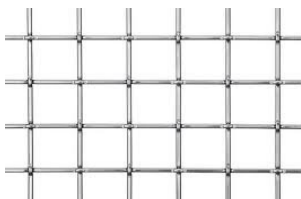

STAINLESS STEEL ROLL

STAINLESS STEEL BASKET

SEE THE DIFFERENCE:

Typical gopher wire —woven 3/4" hexagonal mesh compared to our 3/4" square mesh which provides **30% less opening for gophers and moles to get through and structurally stronger**
